MINI EXCAVATOR ATTACHMENT SETS

QUICK COUPLER

Our brand new couplers stand out for reliability, service and performance due to its simple, but effective design features. The coupler is designed with minimal moving parts, a fully enclosed cylinder offers complete cylinder protection.

1. SAFE

- Dual locking system with visual indication ensures secure attachment.

2. SIMPLE

- Two moving parts and low maintenance for easy operation.

3. STRONG

- High-strength steel construction for durability in tough environments.

4. SMART

- Versatile design, allows multiple positions, and features a safe release mechanism.

5. SECURE

- Positive locking ensures attachment security even under failure conditions.

Our attachment set includes 1 Quick Coupler (manual/hydraulic) and 3 buckets (2 digging, 1 grading).

RANGE

Models	Part Number	Coupler	Trenching	Buckets	
				Digging	Grading
DX10Z-7	230104-08271	Manual	71/153mm	291/458mm	441/762mm
DX17Z-7/DX19-7	230104-08241	Manual	271/305mm	611/610mm	591/914mm
DX20Z-7/DX20ZE	230104-08267	Manual	271/305mm	611/610mm	591/914mm
DX25Z-7	230104-08270	Hydraulic	461/305mm	1061/610mm	1391/1219mm
DX27Z-7	230104-08240	Hydraulic	461/305mm	1061/610mm	1391/1219mm
DX35Z-7	230104-08272	Hydraulic	461/305mm	1061/610mm	1391/1219mm
DX50Z-7/DX55R-7/DX57W-7	230104-08273	Hydraulic	891/458mm	2131/915mm	2221/1524mm
DX62R-7/DX63-7	230104-08274	Hydraulic	891/458mm	2131/915mm	2221/1524mm
DX85R-7	230104-08275	Hydraulic	1431/458mm	3441/915mm	2401/1524mm
DX100W-7	230104-08276	Hydraulic	1431/458mm	4101/1067mm	2871/1828mm

DIGGING BUCKET

A digging bucket is the most common of all excavator attachments, not just the bucket family. Our new buckets are “all-purpose”, high specification buckets. A bucket that is used for traditional “bulking” and “excavating” in the majority of ground conditions.

- CONSTRUCTION
- DESIGN
- PERFORMANCE
- COMPATIBILITY
- APPLICATIONS

1. ROBUST CONSTRUCTION

- Made from high-strength steel for durability and resistance to wear and tear.

2. OPTIMIZED DESIGN

- Shaped for efficient material penetration, minimizing digging resistance.

3. HIGH-PERFORMANCE TEEHT

- Replaceable and wear-resistant teeth for better penetration in tough materials.

4. COUPLER COMPATIBILITY

- Designed to work with various quick-attach systems for improved efficiency.

5. VERSATILE APPLICATIONS

- Ideal for general excavation work, including foundations, trenches, and pipeline installation.

GRADING BUCKET

Our new grading buckets are perfect for all grading and ditching applications. The wide profile of our bucket allows for creating a smooth finish when grading or the versatility for cleaning in scenarios such as improving drainage. This style of bucket is also commonly known as; Grading – Cleaning - Maintenance bucket.

1. WIDE AND SHALLOW PROFILE

- Designed for grading, land leveling, and trench cleaning without excessive ground penetration.

2. HIGH CAPACITY

- Enables moving large amounts of material at once, increasing work efficiency.

3. SHARPER CUTTING EDGES

- Ensures smooth cuts and precise terrain shaping without unnecessary roughness.

4. REINFORCED SIDEWALLS

- Strengthened construction prevents deformation in demanding conditions.

5. IDEAL FOR FINISHING WORK

- Perfect for final grading, landscaping, and maintaining ditches or roadside drainage channels.
