DEVELON

DEVELON

Continuous Evolution for the Better

We trace our roots back to 1937 as one of Korea's first large-scale machine plants. Since then, we have consistently delivered earthmoving equipment to build critical infrastructure for the betterment of communities, societies, and the wider world.

We are Develon.

Develon is a bold name that reflects our core ambition to continue developing onwards and to make a positive mark on our world. Moving forward, we will continue providing innovative products and solutions that advance the world we live in today.

Never Stop Pushing for More

The mid-size Develon dozers bring exceptional power to residential and light commercial construction, as well as a range of tasks like forestry, roadwork, parking, platform building, and recycling projects. Built to adapt and excel, they make every job site an example of efficiency and capability.

Superior Visibility

- Stay aware with Develon dozers' sleek narrow front and minimal pillars, plus an all-glass cab for a clear, panoramic view.

Precision and Control

- Tackle tough jobs smarter with standard 2D Dozing Assist and easy 3D upgrades powered by Leica, Trimble, or Topcon.

Comfort on the Go

- A spacious cab, 8-inch touchscreen, rearview camera, and reliable wipers support smooth, safe operation.
- Adjustable air-suspended seats and reduced vibration keep you comfortable all day.

Undercarriage

- A highly durable undercarriage stands up to harsh conditions and lowers maintenance costs, with an exclusive design using dual and single flange rollers.

With a robust engine, a 6-way power tilt angle blade, and a lightweight build, our dozers aren't just strong—they're smart. Standard 2D Dozing Assist keeps your blade perfectly aligned for precise grading, and upgrading to 3D is seamless for even faster, more accurate work. They deliver power where and when you need it, while staying nimble enough for tight spots.

All-around Strength

Our dozers provide the muscle you need to get the job done efficiently.

- The DD130's 204J PERKINS Stage V engine delivers best-in-class power with 117 kW (157 hp) at 2 200 rpm. With a main pump flow of 132 l/min, a travel speed of 9 km/h, and a max traction force of 22 tons.
- Or choose the DD100 with the G2 DMO3-LEDOO Develon engine—91 kW (122 hp) at 2 200 rpm. With a main pump flow of 103.5 l/min, a travel speed of 9 km/h, and a max traction force of 16 tons.

Tilt, Lift & Angle

Get more power with the 6-way power-tilt angle blade. It lets you lift, tilt, and angle as needed, reducing the number of passes required and helping you move on to the next task quickly and efficiently.

Lightweight Power

Enjoy impressive mobility with our dozers' top classs weight. They provide the perfect mix of stability and maneuverability to handle tight spaces and the power to tackle tough jobs.

**Smooth
and Powerful**

Clear and Confident

Count on our dozers' top-notch visibility to keep you safe. The clever design and features ensure you have a clear view of everything around you, making every job that much safer and more secure.

Safety in Sight

Develon dozers keep your view crystal clear with features like an under-the-hood pre-cleaner, a standard rearview camera, a sleek front nose, and all-glass doors.

Ready for the Ride

With a seatbelt warning alarm, a rotating beacon to alert others, and an Operator Presence Switch (OPS) that stops the machine when you stand up, you'll handle every job safely and efficiently—all while enjoying the ride.

Work without Worry

When you're operating our dozers, safety is a given. Thanks to ROPS and FOPS standards, you can concentrate on the work, not the risks.

Dependable Dozers

When it comes to productivity and longevity in harsh conditions, our dozers set the standard—with advanced features, a robust undercarriage, and easy maintenance to ensure your dozer performs at its best, day in and day out.

Track guard options

Two track guard options, general-purpose and full guard, offer exceptional performance and uptime protection.

Different track shoe options are also available to help distribute load on the ground to suit site conditions.

- Thinner tracks are best for rugged, rocky environments.
- A low-ground pressure tracks are best for sandy soil conditions.

Unstoppable Performance

Ensure you get consistent performance, no matter the conditions:

- With sealed and lubricated components, plus options for single and dual-flange rollers and track guards, our dozers are designed to keep you and the work rolling smoothly.
- Keep your dozer in top shape with maintenance points accessible from ground level, a tiltable cab, and centralized grease points.
- Key features like a high-efficiency pre-cleaner, smart cooling, and a fine-tuned fuel system are all standard and work together to keep your engine running smoothly.

Make Rough Terrain Feel Like Home

Develon's dozers make long workdays more manageable with their spacious, comfortable cab.

- Develon dozers are designed to meet the needs of operators of every skill level. Electrohydraulic controls are fitted as standard and the ergonomically designed joystick offers low-effort control to reduce operator fatigue.
- Featuring an intuitive 8-inch touchscreen, a rearview camera, and dependable wipers, they have everything you need for smooth, safe operations.
- With adjustable air-suspended seats and reduced vibration on rough terrain, you'll stay comfortable and perform at your best.

Enjoy an excellent view of everything around you

Easy Upkeep, Maximum Uptime

Intake System

A high-efficiency, integrated pre-cleaner improves filter life. The standard in-line pre-cleaner is integrated with the air cleaner and the whole assembly is compact enough to fit inside the small engine compartment. Self-cleaning and maintenance-free, the system expels all types of mixed debris, including mud, snow, rain, leaves, sawdust, and chaff.

Hydraulically Controlled Cooling System

The hydraulic system includes reversible fans as a standard feature. Operators can set the fans to reverse automatically at a predetermined time interval. The cooling system is located in the rear of the machine instead of the front. This results in a more compact front engine compartment and better visibility over the blade.

Fuel System

An easily accessible, filter-type, high-performance water separator effectively captures moisture in the fuel, reducing impurities and helping to eliminate contamination. Standard pre-filters and dual main filters achieve a high degree of purity, minimizing fuel system failures.

Easy Maintenance

When maintenance is needed, the dozer's cabin tilts up to provide convenient access. There's no need to disassemble the cab to reach critical components. Regular inspection points are easily accessible at ground level.

Make a Hard Job Easily Done

Dozing Assist Control

Our dozer takes the hassle out of hard jobs with its standard 2D Dozing Assist. Simply set it, and the system keeps your blade perfectly aligned for precise grading—no need for GPS or lasers. It streamlines your workflow, saves on materials, and cuts down on rework.

- Values in green represent real-time blade roll or tilt, in automatic mode, to match target slopes.
- The values 3% and 1% represent the target slopes. These values can be adjusted by the operator using the joysticks.
- The DAC indicator lights on when Dozing Assist Control is activated.

Seamless Upgrade to 3D

- When you're ready to push further, add the 3D assistance kit and the system syncs to unlock full 3D performance.
- Compatible with Leica, Trimble, and Topcon—leaders in 3D assist systems—so you get top-tier accuracy and everyday reliability with every Develon dozer.

All in the Palm of Your Hand

Develon dozers are designed to meet the needs of operators of every skill level. Electrohydraulic controls are fitted as standard, making Develon machines easier to work with even for inexperienced operators. The ergonomically designed joystick offers low-effort control to reduce operator fatigue.

Premium features come as standard

The user-friendly, multilingual Smart Touch display, a standard feature, shows all important settings and information on the one screen. This easy-to-read touch screen lets the operator monitor critical dozer functions and control machine settings, the rearview camera, heating and cooling, radio, Bluetooth wireless technology and more besides.

My Develon ➤ Management on the Jobsite
➤ Work Efficiency Management ➤ Preventive Management ➤ Proactive Service

Monitor Your Equipment From Anywhere

To compete and succeed, your equipment must maximize jobsite productivity and profitability. Develon machines do both. To ensure a high return on investment, we include more premium features as standard on every model – features that other manufacturers often offer only as costly upgrades. By making them standard, Develon gives you a competitive edge, helping operators work more efficiently and enhancing safety during long days in the field.

➤ Telematics Terminal

A terminal device is installed and connected to a machine to capture machine data.

➤ Telecommunication

Develon offers dual-mode communication

➤ My Develon

Stay informed with My Develon—the digital platform that consolidates all equipment information and digital services in one place for quick and easy access. (mobile and satellite) for maximum coverage.

Operation Hours

Total operating hours and hours by mode

Fuel Efficiency*

Fuel levels and consumption

Reports & Location

Operation report and utilization, GPS, and geofencing

Warnings & Alerts

Detect machine warnings, antenna disconnections, and geo/time fence breaches

Filter & Oil Management

Preventive maintenance through scheduled part replacements

Attachments

Dozer attachments bring added versatility to the job and are built to Develon machine specifications for superior reliability and performance.

Parallel
3-Shank ripper
attachment

The Develon dozer comes equipped with piping for the easy integration of an optional parallel 3-shank ripper attachment. The ripper attachment features a parallel linkage that helps maintain a constant angle to the ground regardless of height. This attachment helps quickly break up hard, rugged materials before grading.

Towing
draw bar
attachment

Attach a towing draw bar to your dozer for easy towing of other equipment around the job site.

Two blade
options

Choose from a standard (XL) blade or a low-ground pressure (LGP) configuration. See model spec sheets for blade capacity details.

Blade Tilt

Technical Specifications

DD100

Engine

Make	DEVELON
Model	G2 DM03-LEDOO
Number of cylinders	4
Rated power, gross (hp per SAE J1995)	122.0 hp (91.0 kW) @ 2 200 rpm
Rated power, net (hp per SAE J1349)	115.3 hp (86.0 kW) @ 2 200 rpm
Max. torque, net (SAE J1995)	530.0 Nm @ 1 400 rpm
Displacement	3 409 cc
Bore and stroke	98 x 113 mm
Starter	24 V, 6.7 hp (5.0 kW)
Battery	24 V, 12V x 2, 100 AH
Alternator	24 V, 100 A
Air cleaner	Double element

Hydraulics

Main pump type: variable displacement axial piston pump	45 cc/rev
Max. flow rate	103.5 l/min
Pump cut-off pressure	265 bar
Fan pump	27.375 cc/rev
Max. flow rate	62.9 l/min
Relief valve pressure	205 bar
Max. traction force (drawbar pull)	157 kN (16.0 ton.f)

Noise Level

Guaranteed sound power level	106 dB(A) (2 000/14/EC)
Measured sound power level	105 dB(A) (2 000/14/EC)
Operator noise	76 dB(A) (ISO 6396)

Travel System

HST pump axial piston	2 x 67.6 cc/rev
Max. flow rate	2 x 149 l/min
HST motor swash plate, axial piston	2 x 107 cc/rev
Max. Flow rate	2 x 288 l/min
Reduction gear type	2-Stage Planetary Gear
Reduction gear ratio	46.12
Max. output torque	62.7 / 34.7 kN.m (6 398 / 3 543 kgf.m)
Travelling speed	9 km/h
Max. traction force	16 ton

Standard & Optional Equipment

Standard Base Package

Engine

Emissions compliant with Stage V	■
Diesel particulate filter (DPF)	■
Diesel oxidation catalyst (DOC)	■
Selective catalytic reduction (SCR)	■

Hydraulics

Develon Warranty

Your Key to Equipment Protection and Peace of Mind

Keep your heavy construction equipment protected with Develon. Our comprehensive warranties and premium protection plans give you peace of mind, ensuring your investment stays safe and valuable for the road ahead.

Tailored Warranty Plans

Choose from a range of affordable protection plans, designed exclusively for Develon customers through our authorized dealers. These plans transform your machine's price into a strategic investment, not just an expense.

Develon Premium Protection

Opt for Develon Premium to experience unmatched security, reliability, and overall value. This top-tier plan shields your equipment from unexpected costs and minimizes downtime, letting you focus on what matters—getting the job done.

Act Now!

Get in touch with a Develon authorized dealer today to protect your equipment investment. With an easy process and lasting benefits, Develon helps keep your heavy construction equipment in top condition.

**Choose Develon Premium Warranty:
Play it Safe and Secure Your
Investment.**
